Lighting solutions from Flex Connectors

May 2002 – INTERBUILD SPECIAL

No. 7

IN THIS ISSUE:

- **NEW** – interconnection units now available with metal conduit;
- easier ordering of connection units;
- **FREE** – your complimentary ticket to Total Lighting 2002 at Interbuild;
- **VINTAGE CHAMPAGNE** – your chance to win a bottle by visiting our stand at Total Lighting!

flex 7 news is the regular information bulletin that updates you on the **comprehensive range of plug-together lighting connection solutions and services** available from Flex Connectors Limited to meet all your lighting connection needs.

If you would like more details on any products or services mentioned in the newsletter, please contact us (details overleaf).

INTERCONNECTION UNITS NOW AVAILABLE WITH STEEL CONDUIT

All flex 7 interconnection unit leads are now available with steel flexible conduit as well as plastic. At Flex Connectors, we are firmly committed to working in partnership with customers to develop products that meet your needs and we are therefore happy to introduce this development in response to customer requests.

Plastic conduit will continue to be available as standard but for situations or environments where greater damage resistance is required, steel flexible conduit will have greater ability to protect cables.

Whether you select steel or plastic conduit, all flex 7 interconnection units are manufactured to special order to the same high standard and deliver the same unique set of benefits:

- 7 poles per outlet;
- contacts & outlet rated at 16 amps;
- tested to BS5733;
- slot on top edge for standard drop rod fixing, plus screw fixing plates.

MAKING LIFE SIMPLER

In order to make it as easy as possible for customers to **select and order the appropriate connection unit** for each job, we will be rationalising the choices that are currently available.

- The /V (**Value**) and /M (**Multi**) units will shortly be supplied with an extra contact to allow plug-in switching, but not dimming.
- The /7 range will be the unit to select for all dimming applications.
- The /TF unit will be phased out over the next six months.

We hope this will make life simpler, but if you have any queries or would like to discuss the matter further, please do not hesitate to contact us.

YOUR COMPLIMENTARY TICKET

Total Lighting 2002, part of Interbuild, takes place at the NEC Birmingham from Sunday 9th June to Thursday 13th June 2002 and we are pleased to enclose your complimentary ticket from Flex Connectors to visit the whole exhibition.

**See us on Stand
3E150!**

The opening hours for the exhibition are as follows:

Sunday 9 th June	11.00am – 5.00pm
Monday 10 th June	9.30am – 5.00pm
Tuesday 11 th June	9.30am – 5.00pm
Wednesday 12 th June	9.30am – 5.00pm
Thursday 13 th June	9.30am – 4.00pm

Flex Connectors will be in **Hall 3 on Stand 3E150** and we very much look forward to seeing and talking to as many people as possible.

If your free ticket from us was not enclosed with this newsletter – or if you would like extra tickets for colleagues in your organisation – just let us know and we will send you more.

PRE-ARRANGED MEETINGS

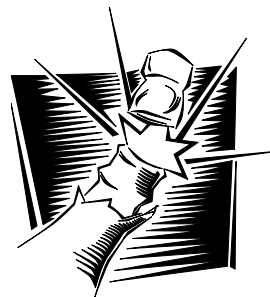

We appreciate that most people will have only a limited amount of time to spend at the exhibition and a great many people to see. To help you make the best possible use of your time there, we would be pleased to arrange meetings in advance for you with members of the Flex Connectors team.

Just phone 020 8580 1066, fax 020 8580 1062 or email info@flexconnectors.co.uk and let us know on which day and at what time you would like your meeting to take place.

WIN A BOTTLE OF VINTAGE CHAMPAGNE!

Visitors to our stand will be able to find out more about the full flex 7 plug-together lighting connection range, including:

- connection units
- multi switching units
- modular chains
- interconnection units
- control and occupancy sensors
- hub units
- plugs and pre-wired plugs
- single socket outlets
- and new developments, such as coloured plugs & sockets and a low voltage switch unit.

And last, but by no means least, everyone who visits us on Stand 3E150 will be entered in a **free prize draw** to win a bottle of vintage champagne – another good

reason for making sure we're on your itinerary!
